INJUSTICE TO CANADIAN WRITERS

INJUSTICE TO CANADIAN WITTEPS
Canadian writers of prose, portry and seage is related at a great
disadvantage on account of the absence of an adequate copyright has
protecting their work, which is feetly parased by United States, from without any recompense to the authors. This state of affairs has been large.
Realizing the need of a national continent to docume, only, the
tyric writers and composers of Canada have been organized into the
students' and Composers, 'Association of Canada. The object of this aisociation is to raise the standard of Canadian songs and to protect Candian authors and componers, and this connection the following farswill be of general interest:

The Association feels that Canadian writers are suffering a severe

stice under the present Copyright Act.

Since that Copyright Act was made, new ways of disseminating ideas have arisen. Today moving pictures and phonographs bring the writer's thought to mill'ons that before depended entirely upon the print-The Copyright Act of Canada at present gives no protection

The Copyright Act of Canada as present gives no protection against the reproduction of an author's surely by moving pictures, or the com-poser's work by means of phonograph records and music rolls. At the present time phonograph records and music rolls. At the present time phonograph records and player, roll music facturers are reproducing songs by Canadian writers without the pay-ment of any ropally walaxeer. The fillish Copyright at of 1911 calls for the payment to the owner of the copyright of 3 per cent. of the retail price of each record or roll solid; and the American Act of 1909 also ulates a royalty payment.

Music publishers have found that practically all the net profits of the ic publishing business comes from this source. They refuse to ac cept a song which does not carry these mechanical rights

Many Canadian songs have recently become popular, even in the United States. Lieut. Gitz Rice, a member of the 5th Canadian Field United States. Licut, title Rice, a member of the glat Canadian Field Battery of Montreal, is possibly the most popular songewifer in the United States today. He has travelled through many of the big cities in the United States set the star of a play called "fireting Together," which was under the direction of the British Recenting Mission. Naturally his songs have a very wide sole, but the is under a severe launding, owing to the fact that as a Canadian he has no mechanical rights either in Canada or the United States.

The American Act reads as follows: Sec. 1, Par. E. "That the

provisions of this Act, so far as they scene copyright controlling the parts of instruments serving to reproduce mechanically the musical work shall include only compositions published and convrighted after this Act goes into effect, and shall not include the works of a foreign composer unless the foreign state or nation, of which such composer is a citizen or subject, grants, either by treats, conventirement, or law, to citizens of the United States similar rights."
The United States publishers are now refusing to consider a son,

a Canadian writer on account of the fact that they cannot collect a mechanical royalties under that copyright act, because Canada has such pravision in her Act.

Lieut, Gitz Rice is a Canadian and Léfén, Gitz Reve is a Camation and a membre of the vatures: and composar's Association. Mr. Robert Service is also a 4 amedian whose lytics are being set to music, and he, too, is being very greatly bandi-capped by our present Copyright. Act. Mr. Albert E. McAut of St. John, N.H., who wrote: "We'll Never Let the Old Page Fail," is a Cam-olian. Mrg. Marris Manday of Toronto, wrote: "Good Laple to the Boys." of the Miles, "one Mr. Gardon V. Thompson of Traveron, whose "When Your Boy Comes Back to Non," "When We Wood Up the Warth on the Rhine," and over a dozen other patrionic songs. Miles Irone Hards wrote, "We're From Canada," Miles Mariel Hrase wrote, "Soitting," Mr. Will J. While wrote "Home Again," All these songs have the reproduced by phonograph and player-roll companies in Canada and the United States without the payment of royalties.

A similar situation exists with regard to the Moving Picture rights-

The author of a Canadian book-cannot prevent the moving picture com-panies from reproducing his ideas on film without any payment of royal-

The fact that Great Britain and United States as well as pr ery other country in the civilized world have realized the necessity of bringing their copyright acts up to date to cover these new methods of mechanical reproductions affords sufficient proof of the need of imme-diate action along similar lines in Canada. Canadian authors and comsers have rendered great service in maintaining the morale of the solers at the front and the citizens at home, by their literary and musical works

Canadian, British and American life com-anies have defied war and pestilence, and ontinue day by day on their courses un-

What is it that gives to life insurance its solidity? The first is: the theory of life insurance agrees with the facts of experience. And then unity: life insurance embodies as nothing else does the principle that in union is strength.

A large group of men united for a single purpose are irresirtible, so, amid the chaotic conditions in the world to-day, swept by war and playee, and threatend with social revolution, the life company holds on its way. The wire man will put every available dollar into sound life insurance.

## Land and Loans-to Help Soldiers Become Farmers

IT is anticipated that a great many soldlers who have served with the Canadian, British or Allied forces may want to become farmers in Canada. The vital need to-day is to increase production and the acreage under cultivation. It is thus in Canada's best interests to give these soldlers acreate saistance. The Government has therefore been deeploing a programme that includes the providing of land, the granting of soans and the training and supervision of those inexperienced in farming.

The Present Plan.

Under the Soldier Settlement Act, 1917, an eligible returned soldier is criticle, in addition to his ordinary homestead right, to a fine grant of one quarter-section of Dominion Lands' on homestead conditions.

on homestead conditions.
For this purpose the Government has suspended homestead entry by other han soldiers on all remaining homestead lands in the Western provinces written miles or railway transportation, pending enquiry pending enquiry lands to the pending sensitive provinces with the pending sensitive provinces of the pending sensitive provinces and the pending sensitive provinces and the pending sensitive provinces are pending sensitive provinces and the pending sensitive provinces are pending sensitive provinces and the pending sensitive provinces are pending sensitive provinces and pending sensitive provinces are pending s

\$2,500. This loan is granted to settlers to help them acquire land for farming, discharge incumbrances, undertake improviments, erect buildings and secure necessiry livestock, machinery and equipment. It is not given as an actual advance of each, but in the form of payment for expenditures. In this way the settler transactions are carefully us low interest.

The loan is made at the low interest rate of five per cent. It is to be repaid in twenty annual instalments. The first two payments may be deferred by the Board when desirable.

The New Proposal.

The Government have found it neces-sary to broaden these original plans for the following reasons:

(a) It has been found that only a limited amount of suitable homestead land is available for soldier settlement (b) Some Crown lands are held by the

(c) Homesteading may not suit all the

returned solders.

It is now propered that the Provincial Governments co-operate with the Solder Settlement Board in acquiring suitable, lands at present held uncultivated by private owners. The Dominion Government has announced its intention of introducing necessary legislation along these lines at the opening of the next Session.

The lands so bought will be re-sold to the soldier, at cost price. It is suggested that the purchaser be required to make a cash payment of one-tenth of the pur-chash price. The balance will be payable in equal annual instalments extended over twenty years or longer.

The amount of the land purchased by this plan, if it is approved by Parliament, will be limited in value to \$5,000. Interest will be charged at a low rate of five

When these new proposals for land purchase become effective the Board will be able to loan the soldier settler up to a total of \$1,500 for the purchase of live stock and equipment in addition to the loan for the purchase of his land. It will be granted on practically the same terms as the loans now allowed.

as the toans now allowed.

As the soldier improves his farm the, I Board may advance him a further \$1,000.

Who May Apply

The Act applies to any one who has served with an honourable record in the Canadian or Imperial forces in the present, war, or to any Canadian who was on active service with the Allied forces, or the widow of any such person who died

on active service.

The Board will loan money only to those who have had sufficient experience or training in farming. Each applicant may be required to appear in person before the Qualification Committee in his district.

Training

Those soldiers who have had insuffi-tion experience in farming will be helped by the Board to secure the necessary training to qualify them for the loans.

Special instructional courses are being arranged with the agricultural schools and experimental farms.

Farmers will be asked to co-operate in giving the soldier practical training and knowledge.

Expert Assistance

The work of the Soldier Settlement Board is carried out by Supervisors in each of the provinces.

These supervisors have under them a staff of land appraisers to valuate the land, and, farming advisors or practical farmers in the community to advise the soldier after he has definitely settled on

Qualification Committees are being appointed in each Province to advise the Board as to the qualifications of each applicant.

Loans, amounting to over 11 million dollars, have already been granted to over one thousand returned soldiers.

Since the regulations were completed last July, over eight hundred soldiers have made entries on Dominion Crown Lands under the Soldier Settlement Act.

## **Creating Opportunities** for Employment

BESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Briefly, these plans cover the following phases:

1. Public Works

During the war, many importants blic Works have been held up. The Min-ister of Public Works, has his plans and preparations stude to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works pro-gramme now in sight will provide employment for many returned soldiers see

During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. ### 4. Export Trade

The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas.\ Through this trade mission it is anticipated that Canada will secure an important hairs in the business may be considered for reconstruction work in Europe. A short time may be required before under the construction and definite results are announced. The business to secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.

Houring
The Government has set aside the large sum of \$25,000,000 to be learned through
the Provinces in order to encourage the building of workmen's houses. When
the season for building arrives, this work should give employment to many huadreds of men both in construction work and in the supply of materials.

The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that 2 large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will involve the very long building materials, supplies, machinery, etc., all of which will satisf in providing employment.

### 7. Road Building

The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable desision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity viding employment opportunities, and stapared to assist in every way possible. If core and private citizens will join in this fe Repatriation Work, Canada should have lifeculty with the employment problems.

# We wanted Music in our home, so we got a New Edison.

Somehow we had a deep-seated notion that Music that is merely a resemblance, that is only an imitation, is simply not Music at all. To have contented ourselves with anything but the actual voice or playing of the living artist would be enduring something that is not Music.

Talking machines imitate Music. Only the New Edison "Re-Creates" Music, and so truthfully that, as we listen to it, it is difficult to believe the living artist is not actually present.

Wouldn't voulike to hear this really marvellous invention of the world's greatest inventor? With the New Edison there are no needles to change. Can play all makes of records. Easy terms if you wish.

#### BETTER CIVIC GOVERNMENT.

BETTER CIVIC GOVERNMENT.

Give government as idulation in Canada at pressue has many weak points and in the spinion of many close observers is all wrong, expense, the contract manifold officials are more often hampered in their work by the constantly chapping personned of the console, under the present elective system than helped. Effects to desprove this updortunate state of affairs has not shown any out-statement of the consoleration of the consoleration of the consoleration of the contract of the consoleration of the contract of the consoleration of the contract of forts to Supervest his ynfortunete state of affairs has not shown any forts as standing results thus for but the subject is structing such widespread attention attended by interesting experiments in new methods of civic government has it is within the persion of probability that a parcical solution of the problem will be found in the near future, Mr. J. Abolition of the ward system should depend upon the charrcter of the population. Where it is homogeneous the ward
year is unnecessary. Where there is a large foreign element
might be wise to keep it.

But annual elections are a great evil.

#### A Nation of Bond-holders

Before the War, Canada looked outside her borders for Capital. During the last three and a half years, Canada has become a nation of Capitalists,—for the man who beys a \$50 Victory Bond, or \$5 War-Savings Stamp, is a Capitalist of the best type.

By the discovery of ten times the number of Capitalists, or Bond-holders, that the previously had, Canada has made a great stride forward, laterest charges, necessarily high at this time, do not withdraw money from the country. Home industry is fostered, and the problem of the War Burden is solved.

EVERY CANADIAN SHOULD BE A CAPITALIST. The contunity is provided by the offer of War-Savings Stamps at \$4.01 this and redeemed for \$5.00 on the first day of 1924.

The Word "Bolshevik"
Woodstock Sentinel-Review
The York County Council 'struck

what was meant by it. It is probably
true that "t would be impossible to se-

is that a good reason for discarding
it? Some of the most useful words in
the language are those which are be-
youd the range of accurate definition,
They are useful precisely because no
body knows exactly what they mean
although every one may have a seneral
al sense of their meaning. It is the
use of such words that makes possible
much of our conversation, a creat theat
of our speech-making and most of our
hot-hended arguments. If people were
confined to the use of words which
they could define there would be a
stomp in oratory, a truce to disputa-

Candy not a Luxury

Twould be folly indeed if a belief detri-mental to the public welfare—and proven false—was allowed to last any longer. That false belief is that candy is a luxury. Candy is food in one of its most useful and attractive forms.

All elements used in the composition of Candy, are recognized useful foods.

Candy contains large quantities of sugar, some fats such as butter; also nuts, fruits, corn syrup, chocolate and flavoring.

Combine these ingredients in proper propor-tions and you have a balanced ration—the high food value of which is recognized by all, leading food and medical authorities.

Sugar supplies the bodily demand for fuel. Fruits and nuts produce essential nutriment; chocolate is a most nourishing fat food and delightful stimulant. The flavorings stimulate the digestive organs and increase the flow of saliva and gastrio fluid.

Bat more candy ! Medical science has established its value as an energy-producing food.

Serve Candy as a Dessert. It is a Splendid Food.

There is urgent need for the production of more food and other supplies, as well as the means to carry our products. All these things are for Canada's good, and are essential to Prosperity.

But they necessitate the Government spending large sums of money, and this money must be borrowed at high rates of interest.

In order to keep this interest in Canada and to give EVERYONE a chance to profit by it, the loan is floated in a denomination of only \$4.01, matering on the first day of 1924, at \$5.00.

In order that even the smallest savings shall share the privileges of the Way-Savings Stamp plan. HHRIT Stamps may be purchased for 25 cents such, sixteen of which affixed to a Thrift Card will be exchanged for a Way-Savings Stamp.

A Tribute to the Hardest Worked Merchants in Our Country

HAVE you ever considered the important part played by the grocer in our daily life?

From early morn and often until late at night the grocer keeps open for our convenience. Whether we want a 5-cent bar of soap, a package of tea er a sack of potatoes he is there to serve us—and with a cheerful "thank you".

You trade with him almost every day. You look upon him as a friend. He treats your children kindly when you send them to the store.

When sickness, accident or unem-ployment occurs, it is the big-hearted grocer who supplies the home with the

### **RUBBERS Will Help Your** OLD SHOES to Last Through the Bad Weather

A new pair of rubbels will make the old shoes water-proof—will give you new, springy rubber heels—and prevent you from slipping on the slushy or icy sidewalks.

Rubbers are an absolute necessity during the next two months, to keep feet dry and prevent you from taking cold.

There's a double reason for you to look for these Trademarks when buying Rubbers —

"Jacques Cartier" "Merchants" "Maple Leaf"
"Compa" "Dominion" "Daisy"

are the Dominion Rubber System brands that enable you to get just the style and shape of rubbers to perfectly fit each pair of shoes you wear.

The Trademarks guarantee the quality. Look for them whenever you buy.

What is \$4.00 today? It is a question of purchasing power. What will \$4.00 buy at present prices? Just over one third of a barrel of flour. Before the war flour was selling at \$5.00 a barrel.

No one can say just how much more the purchasing power of the dollar will be in 1924, but you can see that the four dollars you put into War-Savings Stamps now, will grow, not only in number, but in value.

Your investment in War-Savings Stamps is like the snowball rolling down a slope. You give it a start and it grows by itself!

Your four dollars becomes five, and every dollar will be worth more.

Whether you buy one W-S.S. each day, or each week, or each month, or only two or three in a year, your money is growing, growing, GROW-ING all the time.

Those who cannot invest \$4.00 at a time, can buy Thrift Stamps at 25 cents each Sixteen of these on a Thrift Card will be accepted as \$4.00 in exchange for a W-S.S.

These Trade Marks Make it so Easy for You to Get Perfec Fitting Rubbers

SINCE the Dominion Rubber System focused their experience and skill on Rubber Footwear, they have made rubbers a comfortable and econo-mical necessity.

There are no better rubbers in the world than these made and guaranteed by Canada's great pioneers in rubber goods; and no other country can boast of having six brands as consistently good as

"Jacques Cartier" "Merchants" "Maple Leaf"
"Granby" "Dominion" "Dainy"

More than this, the enormous demand for these rubbers, due to their uniformly high quality, enables the Dominion Rubber System to make rubbers in every style and shape to fit every shoe.

These are two reasons why the leading stores like to-carry, and are glad to recommend, any of these Dominion Rubber System brands of guaranteed rubbers.

Look for the Trademarks when you buy.

## Chocolatesas a Dessert

PASS the chocolates again, please."
They certainly give a finesse to the meal, which is a most decided improvement over the customery heavy puddings or fancy

Good chocolates are quite the vogue now for the third course and as a tasty, profit-able and beneficial dessert their use is a

The many occasions on which chocolates can be served with relish and appreciation make them almost a household necessity.

As delicate, delicious desserts—at afternoon tea—as a relish for luncheon—inid the family circle in quiet hours—or at late suppers—chocolates may be served with ex-sellent tasts and good form.

Chocolates are not a luxury. They are energy-producing food and can be eaten in your home with benefit to both old and young.

Canadian-made chocolates have no superiors.
Their high standards of quality and whole-someness are obtained by purity in manufacture and the careful selection of all materials used.

OW Price has never been a consideration in designing and building the Gray-Dort. Our engineering department and our purchasing department have but one aim—to roduce the finest light car.

That the price is reasonable is due to factory efficiency and large production.

large production.

Especially if you have owned or driven another light car, you will appreciate the, refinements in the Gray-Dort—the smoothness, power and pick-up of its motor; the standard equipment; the confort of riding and driving; the umbientised beauty of line and finish.

The touring car is \$1245; the Gray-Dort Special—the car with added refinements and extra equipment—is \$135 extra; there are also a coupe, and a sedan. All prices f.o.b. Chatham and are subject to change without notice.

## Can You Lead Men and Women

WAR-SAVINGS Societies need leaders organizers—men and women with initiative. Who will start a War-Savings Society? Who will lead the way?

## War-Savings Societies Help Thousands To Save

War-Savings Societies have been, and are, a tremendous success in Great Britain. Thousands who were never able to save their money have accumulated Government certificates worth hundreds of dollars.

In the United States, millions of people are members of War-Savings Societies, which are organized in factories, offices, stores, farming communities, sections of towns and villages, schools, and clubs.

Everywhere throughout Canada, War-Savings Societies are in process of formation. Everyone who can save an occasional quarter should belong to a society first, for his or her own direct benefit, second, because Canada can use the money to excellent advantage, as in the case of the War Loans.

For details of the organizing of Was Savings Societies and par culars regarding Was Savings Stamps or Thrift Stamps, address NATIONAL WARS AVINGS COMMITTEE 361 Richmood Street, London, Ont. 34 Toronto Street, Toronto, Ont.

ROUND WORK ALL FINISHED AND ACTUAL PEACE TREATY IS NOW IN SIGHT-THERE MAY BE A PRELIMINARY TREATY FOLLOWED BY FINAL TREATY WHEN CONDL TIONS BECOME STABLE IN GERMANY-WHAT GERMANY OWES FOR REPARATION AND WHAT SHE CAN PAY NOW

Special Despatch to The Intelligencer, Canadian Press, Limited PARIS, Feb. 24 .- The atmosphere around the Peace Confere changed remarkably in the last few days. The deliberation given way and even the most conservative delegates are being carrie forward at a great pace. Talk of carly-peace has become gener actual directing force toward that end has been Premier Clen

France originally doubted the wisdom of concluding peace before ditions erystallized in Germany. This view was reflected today by Stephen Pichon, French Foreign Minister, in his regular Sunday, talk with foreign newspaper correspondents. It is believed by some that the realy which will be signed first must be followed by another final treaty which will exactly prescribe conditions to be met by the late powers. Sev eral months may clapse before this can be made ready. M. Pichon said that Germany would be first dealt with, because of the greater imp of the problems presented in her case, but added there were im Turkey. Military experts, he said, have been instructed to examine nem and have been in readiness for speedy adjustment. The co sioners who are considering reparations, the minister said, are nearing

The first question to be determined is what Germany owes, and then hat she can pay. After this a plan can be devised by the entente for dividing the reparation obtained among the entente powers.

He said the subject would, therefore, await his return to his

YOU can get the same sturdy wear—the same guaranteed quality — for the Children, that you have found so satisfactory in your own rubbers.

"The best rubbers that can be made" is the standard of the Dominion Rubber System. And this applies to ALL rubbers bearing the Trademarks of the Dominion Rubber System.

Children's rubbers are made with the same care, of the same high-grade materials that give such easy comfort, such long wear, in the rubbers for men and women.

This superior quality is necessary in Children's rubbers because they need the extra protection which good rubbers give on wet days; and they need the extra quality to withstandithe rougher usage which most children give to all footwear.

Ask for these better rubbers by name:

#### HOW TO STOP A SUBSCRIPTION.

There is probably no man engaged in the newspaper bu There is probably no man engaged in the newspaper outsiness in Oznicin who is not acquainted with a man whose excuse for discontinuing his subscription is that he already "has more papers than he can read." It is only an excuse offered to ameliorate the presumed lacerated condition of the editor's feelings. It has no such effect, for in the first place an editor never worries over the loss of a subscriber except when he an addition never worries over the loss of a subscriber except when he leavest the request without paying us preservages. Must why not be truth-ful and say to the honest nevespaper man just what you feel in your bear? Go into his does and sake, him how much you over, pay the de-linguously and tell him frankly that you foot; want his disreputable, blackgrant sheet say Tonger. Say to him in a sprowful it cose of voice that you deeply regret his inability to publish a nevespaper worth or name and active him to sell his plant to soom man with at thimble full of which does not require much wear an tear of mind. Do this and then you can go away with the comforting assurance that the newspaper man respects you for your candor and will oberish no hard feelings because you choose to borrow his paper instead of buying it.-Kingston Whic.

"I urge that this work be begun without delay. There is no time to be lost. The fields are ready for the work. If the right seed is now to be loat. The fields are ready for the work. If the registrates to some with an amappaing hand, the horsest will be rich and glorious. The teaching aboud be given by lectures, books; pictures, plans, maps, ane-doest; addresses, and in sother ways. I suggest that the Royal Colonial lamittude take the matter in hand and make it one of its chief objects. The half of other kindred institutions would, I feel sure, he freely given. As of several sons who have fought and suffered to save the Empire a satter on several sons wan nave fought and suffered to save the Empire, I make this enrest appeal to you, peoples and fathers of the Empire whom God made the guardians of the children, to do your utmost in this matter to have the children trained, taught; and disciplined guardians of the Empire. People of the Empire, what is your againet? Members and Fellows of the Institute, will you help?"

How irresponsible government blundered Britain into the great war unprepared was told visigly by Prof. T. Callander, of Qween't University. before the Women's Candian Chui in the High School Assembly Hall hast evening in an address open "Our Country and Our Times," wish-tunovered and exposed the criminal blinders of the Anguilta powerment to the German peril, supported as they were by a positist poble and person. Despite the warrings of Lord Royer, Balliour and others of the fearful danger the Asquish power war government with Flaktane in the War (Circ, while lood) preclaiming they had no social neutrino, actually reduced the Reithi sarry by these or the proposed process of the Proposed Country of the Country of the Proposed Country of the Even one more division in the beginning might have changed the whole history of the war. Prof. Callander handled the pre-war care-lesaness of the Asquith government in a fair and generous manner, very derate in tone and stripped of all political bias. For the most part h simply presented the facts, which are now current history, reinforced with quotations from the public sayings of supporters and opponents of the Asquith pre-war government. Many new lights were thrown upon this interesting period with its mystery of blind or hypnotized statesmen.

The speaker discussed Socialism, Bolshevism, government control

operation of railroads in an interesting manner Prof. Callander's address is so timely, true and illu uses which permitted Germany to come so near victory, and his views State ownership and control of railways, Socialism, etc., are so frank-given as to compel earnest thought and consideration, whether one ly given as to compel earnest thought and cor ees with him or no, that the address is well worthy of publication in

Our Country and Our Times.

Never before since recorded history began, some 5,000 years ago never before has the human care seen such times as ours. A sanguit ary and colossal war, grim famine; the horrors of diseise and latterly:

pestience, a veritable Black Death, have scourged the nations for five naviul years. Over twenty centuries ago an Athenian saddy remarked after a frightful calamity had overtaken his beloved city; that the year had lost its Spring. So may we with greater reason confess that our age, the twentieth century, has lost its Spring. Yes! and for how many, especially of the younger generation, will there be neither smiling summer

#### Holy City of Pfigrimage.

The Terror that so many apprehensel, that too many ridiculed, has indiced done its fell work. The British Empire alone, to say nothing of our Allies, monrar a million dead. Who shall estimate the angulish involved in such a pholocuast of our noblest and best? Tor counties multi-tools every pole of that blood-andels batterform it severe ground. That will behin Holy (try of pliprinage) in our time. And for those who cannot make the pidrigrinage here remission the privilige and the day of keeping fresh and green the memory of our heroes. For, after all, the true manorial to those who have yielded up everything, life itself, for us, erely in the material monuments erected in their honor As the illustrious statesmea of ancient Athens reminds us: "There is it every land a memorial tomb for those who shed their blood in a gloriou ause, the shrine in the hearts of all who cherish the memory of their valor.

#### Ruin of Mighty Empires.

Startling and spectacular incidents, have been 'crowded into thes fifty-odd months. Three of the mightiest empires have crashed to ruin. The proudest dynasties, Hapsburgs, Hohenzollerns, Romanoffs have bit much of recent history, not of Russia alone, is summed up in the ghastly scene enacted in the basement of the villa in Ekaterin hurg last July! The Czar and his family on their knees pittlessly shot and stabbed, the Princess Anastasia, through her butcher bungling, clubbed to death. That dark chamber a shambles, just as Russia at large is a shambles. Poor Nicholas, an honorable ally but weak, too weak to ride that whirlwind and direct that storm. Yet, far happier for all his than the arch criminal who awaits his fate in Amerongen,

The material loss is gipanie of concere. Utriain, for example, could have wiped out powerly for ever by a wise use of a forction of the wealth devoted to the Milet acuse. Now every Milet causety, recept the United States, is foundering in a morass of debt. Wherever we turn we are forced with heavy expenditure, renalized transition, below unrest and strikes, social sarife between classes, employers, and the unrest and strikes, social sarife between classes, employers, and the proposal resistant for the control of the control o es, sharp conflicts between West and East, the perennial problem mos'ties, sh of Quebec.

#### One Bright Snot.

In the whole horizon the bright spot by com In the whole horizon the enging is no youthnot uncertaint is necessition of democracy. One of this pinn all our wors who chant the triumph of democracy sums up our gain, from all our woes, in a phrase: "We are entering on a vastly more dedgerated gae." (Furthermore, he voices the opinion of half a world inviltes next words: "It is not the League of Nations which a. "can guarantee us peore, but democracy.

What we are confronted with then after passis of affliction is the drift towards more democracy. We can assume, for of alliction is the drift towards more democracy. We can assume, us instance, that Canada will end all franchise controversy by granting adult suffrage. Such a change is comparatively small and even if a device like the Referendum is adopted the present system will not be substantially altered. These and, similar adjustments seem destined to realize them. selves before we are much older. When democratic institutions are full-fledged and complete, what then?

Protect Your New Shoes With Perfect Fitting Rubbers

T is sound advice the shoe man gives you when he suggests that you have your new shoes fitted with rubbers.

He knows that both shoes and rubbers will wear better and hold their shape longer.

He knows that rubbers will protect both your shoes and your health in

He knows that in the Dominion Rubber System Rubbers, there is a style and shape to fit every shoe for every member of the family. He knows that these six brands are guaranteed:

"Jacques Cartier"
"Granly"

"Merchants" "Maple Leaf" "Dominion" "Design"

And he suggests that you have each pair of your shoes fitted with the corresponding style in rubbers, because this is a part of the service which the customer has a right to expect from the modern, up-to-date shoe store.

Be sure to ask for one of the Dominion Rubber System brands in above. They give the best wear.
